

ATTENTION POTENTIAL COUNSELOR:

Prior to registering, we would like you to prayerfully and prudently consider the following facts:

- 1) If you are a counselor assigned to a cabin that is hosting campers, ANY and ALL medications you will be taking while at camp must be kept at the nurse's station. The only exception will be if you will be leaving your medicine in a locked vehicle that only you have the keys to. This rule is per California law with regards to private camps. The nurses are willing to accommodate your personal schedule. Please bring and show the nurses ANY medications you will be taking while at camp.
- 2) You will be filling a demanding position and your time for rest at camp can be limited. Just as you are preparing yourself spiritually to come to camp, you will also need to prepare your physical body. Get plenty of rest before camp and physically prepare for regular walking.

This form must be signed and returned with your application. By signing it, you are stating that you agree with the contents and are willing to abide by the rules.
